

**International Conference on Mathematics
of Islamic-Persian Architecture
27-29 August 2007
Isfahan Mathematics House, Iran.**

Isfahan Mathematics House with full cooperation of the Iranian Cultural Heritage and Tourism Organization will organize this international conference.

Goals:

- Discovering the relation between mathematics and Islamic Architecture.
- Discovering and introducing the applications of mathematics in Iranian Architecture.
- Motivating mathematics students to get familiar with the application of mathematics in Islamic Architecture and the art students to study the mathematics of Architecture.
- Introducing the scientific and historical documents and manuscripts on Islamic Architecture.

So far, the following Iranian and Foreign Institutes supported the organizers:

1. University of Leiden, the Netherlands
2. University of Utrecht, the Netherlands
3. Freudental Institute of Netherlands
4. Encyclopaedia Islamica Foundation
5. Institute for the History of Science (University of Tehran)
6. Iranian Mathematical Society
7. Iranian Academy of Art
8. Iranian National commission for UNESCO
9. Iranian National commission for ISESCO
10. Islamic Republic of Iran Broadcasting
11. The Ministry of Higher Education
12. The University of Art

The helps we need, are:

1. Introducing researchers in the field who have at least 2 international journal papers on the subject. (A copy of the C.V. of each candidate should be reached mathematics house by 22 September 2005).
2. Supporting the organization of the conference scientifically and financially [Supporting researchers to contribute to the conference is one way to support us.]
3. Introducing the organizations who can support the conference.
4. Announcing the conference and helping the contributors to attend the conference.
5. Distributing the announcements and information about the conference at national and international levels.
6. Any suggestion for improvement of the conference.
7. Cooperation in financial and official works of the conference.
8. Participating in the conference exhibition.
9. Proposing workshops and other activities for the conference.
10. Recommending support for the conference
