

بازتاب انتشار مجله تاریخ علم در محافل علمی

به فضل الهی، نشر شماره اول و دوم مجله تاریخ علم که در واقع نخستین و فعلاً تنها نشریه علمی تخصصی رسمی^۱ در زمینه تاریخ علوم در ایران است، با اقبال و تشویق و تأیید محافل علمی و دانشگاهی و پژوهشگران حوزه تاریخ علم روبرو شده است. شماری از این تأییدها و تشویقها در اینجا ارائه می‌شود، اما بیش‌تر در انتظار رهنمودهای سازنده صاحب‌نظران برای ارتقاء علمی پژوهشی مجله‌ایم.

لذت‌بخش است، تاریخ علم بی‌شک در راه روشنایی و توسعه علم در ایران می‌تواند نقش مهمی داشته باشد.
ممد و ارم در همین سطح بود نشانی علم استوار و بی‌گردد می‌ماند. در مسیر پیمایی در راه روشنایی و توسعه علم در ایران می‌تواند نقش مهمی داشته باشد.
در محافل علمی و دانشگاهی و تشویقها در اینجا ارائه می‌شود، اما بیش‌تر در انتظار رهنمودهای سازنده صاحب‌نظران برای ارتقاء علمی پژوهشی مجله‌ایم.
نیز اگر در محافل علمی و دانشگاهی و تشویقها در اینجا ارائه می‌شود، اما بیش‌تر در انتظار رهنمودهای سازنده صاحب‌نظران برای ارتقاء علمی پژوهشی مجله‌ایم.
موفقیت‌های شما را در راه روشنایی و توسعه علم در ایران می‌تواند نقش مهمی داشته باشد.

Dear Professor Alemzadeh,

Thank you for sending me a copy of the first issue of Tarikh-e Elm. Please accept my congratulations upon its publication. I am glad to see that the study of the History of Islamic science continues at Tehran University, and after a brief perusal am favorably impressed with your journal.

I am honored to be asked to be part of your editorial board and to contribute articles, but regret that at the age of ninety-two I am completely incapable of further scholarly achievements.

Sincerely,

E. S. Kennedy

Dear Professor Alemzadeh: Salaam

First of all I would like to congratulate you and other members of editorial board for publishing Tarikh-e Elm. This is an excellent vehicle for conveying the contributions of Iranian and Muslim mathematicians to others.

I learned about this journal recently from Professor Glen Van Brummelen who is the editor of the abstracts for the Historia Mathematica. I will be abstracting the articles that will appear in this journal for the Historia Mathematica. So, please send me a copy of this journal as soon as it is published, so I can abstract the articles in a timely fashion for the Historia Mathematica. Professor Glen Van Brummelen has abstracted the 2003 issue and he has not received any other issues. Also, if possible, please send me a copy of 2003 issue for my records.

P. S. In a recent e-mail that I received from Professor Jan P. Hogendijk, I was glad to hear that Professor Jan P. Hogendijk and Professor A. I. Sabra were recognized for their many contributions, especially, their book, "The Enterprise of Science in Islam."

Dear Prof. Alemzadeh,

With many thanks, we would like to confirm the receipt of your journal "Tarikh-e'Elm " I will be pleased to cooperate with you through the multinational editorial board and counsellors.

Besides, we would like to make an exchange between our " Journal for the History of Arabic Science " and your journal " Tarikh-e'Elm ".

So, we send, by separate mail, Vol. 12 of our journal which is the last volume published until now.

With Best Regards.

Yours sincerely,

Dear Professor Alemzadeh,

This is to acknowledge receipt of your kind letter of February 3rd and of the first issue of the journal *Tarikh-e Elm* that you have edited and in which you have assembled a series of articles on the history of mathematics and astronomy in Iran. The journal will certainly contribute to raising the interest in the history of science in your country.

You have kindly invited me to contribute to the new journal. Considering that I am editing a periodical that is also devoted to the history of science in Islam, you will certainly understand that my first concern is our own publication so that I may not be able to comply, in the near future, with your kind invitation.

Nevertheless I would like to wish your journal all the success it deserves.

With kind regards,

Yours sincerely,
